PROFESSIONAL SUMMARY

Cloud Operations Engineer with hands-on experience in Linux, Kubernetes, Docker, and monitoring tools. Experienced in handling client support tickets, troubleshooting production issues, and maintaining infrastructure in a datacenter environment. Skilled in automation, high-availability deployments, and cloud-native technologies.

TECHNICAL SKILLS & TOOLS

Cloud & Containers: Kubernetes, Docker, AWS (EC2, IAM, VPC – Basic)
Operating Systems: Linux (CentOS, Ubuntu, AlmaLinux), Windows
Monitoring: Prometheus, Grafana, Zabbix
Networking: DNS, DHCP, Load Balancing, SSH
Web Hosting Panels: WHM/cPanel, AA Panel, Cyber Panel, Plesk
Version Control: Git, GitHub
Programming: Core Java, SQL
Virtualization & Storage: VMware, Proxmox, Ceph, MinIO (S3-compatible storage)
Automation Tools: n8n

WORK EXPERIENCE

Cloud Operations Engineer (Intern) – *RackBank Datacenters Pvt. Ltd. Indore* (*May 2025 – Present)*

- Managed production Linux servers (Ubuntu, CentOS, AlmaLinux) for customer and internal workloads
- Managed client support tickets and performed incident management and troubleshooting in a production datacenter environment
- Deployed and managed web servers (**Apache, NGINX, Tomcat**) with **reverse proxy** configurations
- Implemented automation workflows using **n8n**, reducing manual effort and improving response time
- Performed AI inference benchmarking using **MLPerf**
- Managed firewall rules, SSH/RDP access, and system/network troubleshooting
- Monitored system performance and handled real-time incidents in production environments
- Worked with containerized environments and **Kubernetes** concepts for deployment and scaling

TECHNICAL PROJECTS

High Availability Kubernetes Infrastructure

- Built a 3-node HA **Kubernetes** cluster using kubeadm and **Traefik** Ingress.
- Implemented **auto-scaling** (HPA) and zero-downtime deployments (Rolling Updates)
- Deployed **Prometheus, Grafana**, and **Alertmanager** for monitoring

Automated L1 Support Ticket System (n8n + WHMCS)

- Designed automation workflows integrating **WHMCS** and **n8n**
- Automated ticket responses, escalation, and status updates using WHMCS API
- Improved response time and reduced manual effort

EDUCATION

Master of Technology – School of Computer Science & Information Technology DAVV, Indore
Major: Computer Science (CGPA :8.16) *August 2024 – June 2026*

Master of Science – School of Computer Science & Information Technology DAVV, Indore
Major: Computer Science (82.24%) *August 2022 – June 2024*

Bachelor of Science - Government Holkar Science College (Model Autonomous), Indore
Major: Computer Science (75.24%) *August 2019 – June 2022*

CERTIFICATIONS

Cybersecurity Certification – DDU-KK, DAVV
Power BI Workshop – DDU-KK, DAVV
cPanel Professional Certificate Exam: cPanel University Plesk Obsidian Associate: Plesk University
